New MWS Family Service Centre in Sengkang West

Methodist Welfare Services (MWS) is pleased to announce the launch of its newest Family Service Centre (FSC) in Sengkang West, which will begin operations on 1 August 2025. Temporarily operating from Allkin Singapore's FSC at Blk 223D Compassvale Walk, #01-673, the new centre – MWS Family Service Centre – Sengkang West – will move to its permanent premises in due course. With this addition, MWS will operate four FSCs and one satellite FSC, further expanding its reach to support individuals and families in the community.

The newest FSC also represents another step in the expansion of MWS' provision of family services in the Hougang, Sengkang and Serangoon region. It recently re-located its Families for Life@Community – MWS office and MWS Strengthening Families Programme@Family Service Centre to Hougang Avenue 8. Together with MWS Covenant FSC on the same street, the three Centres aim to deliver seamless, integrated support to families in the region.

"We are excited to commence operations at MWS FSC – Sengkang West," said Calvin Ngo, CEO of MWS. "This region is rapidly growing, with more families choosing to make it their home. MWS is committed to walking alongside these families through every stage of life, offering holistic support tailored to their unique challenges and strengths."

He added, "We are also deeply grateful to Allkin Singapore for generously allowing us to operate from their centre during this interim period. Partnerships like these are invaluable as we work together to build a stronger, more supportive community."

Family Service Centres (FSCs) are community-based touchpoints that provide support to individuals and families facing complex and multiple challenges ranging from family conflict, parenting difficulties, and marital issues to financial distress, abuse, and domestic violence. Each client receives a personalised care plan that may include counselling, group work, and connection to relevant community resources to help them achieve stability, self-reliance, and social mobility.
